UZBEKISTAN OUTSOURCING SESSION

Dear Valued Guest,

We are delighted to invite you to the Uzbekistan Outsourcing Session in Sapporo 2025, hosted by the Ministry of Digital Technologies of Uzbekistan and IT Park Uzbekistan.

This event will highlight the exceptional opportunities emerging from Uzbekistan as a premier outsourcing destination, with a particular emphasis on the growing cooperation between Japan and Uzbekistan.

Since 2024, IT Park Uzbekistan has been organizing a series of outsourcing sessions across Japan. This session in Sapporo marks the 6th edition of the initiative. Last conference in May this year, more than 140 Japanese companies participated in our conference and sessions.

In 2023, there were no Japanese companies among IT Park residents. Today, more than 20 Japanese IT companies are already outsourcing through Uzbekistan, and in May 2025, we opened our Representative Office in Tokyo, inaugurated by the Minister of Digital Technologies of Uzbekistan.

This time, our focus is on Japanese prefectures facing severe labor shortages and requiring cost-effective outsourcing partners. Uzbekistan's highly adaptable workforce, combined with government-backed incentives, offers the perfect solution.

In addition to the Sapporo session, we are also hosting sessions in Osaka on October 21 and in Tokyo on October 22.

Why attend?

Whether you're considering expanding your business, looking for strategic outsourcing partners, or simply curious about Uzbekistan's potential, this session is the perfect platform to:

- Learn about the advantages of the Uzbek market specifically for Japanese companies
- Gain insights into real outsourcing case studies of Uzbek companies working with Japanese clients
- Network with Uzbek IT & BPO leaders and Japanese industry peers
- Explore collaboration opportunities supported by both governments

Please note: The session will be conducted in Japanese
Participation is free of charge
